INTERVIEW SUMMARY(cont.)

Claims discussed: All remaining of record, claims 11, 14 and 16-21 in particular.

Identification of prior art discussed: '832 Chamberlain et al. patent.

Description of the general nature of what was agreed to if an agreement was reached, or any other comment: Applicant was queried concerning whether a terminal disclaimer citing the '832 patent would be a step that applicant would be willing to take under the proper circumstances. Applicant's representative replied that in view of the absence of a double patenting rejection such a response would not be appropriate, but that even if such a rejection were made of record, questions of enforcement of the parent patent suggested to applicant that such a path would not be appropriate. For this reason applicant's representative respectfully declined the suggestion.
